

# Opto 22 RoHS Statement of Compliance— Industrial Control and Monitoring Instruments

---

## Statement of Compliance

**With regard to the EU Directive 2011/65/EU of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (recast)**

All Opto 22 products are considered industrial monitoring and control equipment, which is not subject to the substance restrictions of Article 4 of the directive until July, 2017. Therefore, all Opto 22 products are compliant with this directive.

Opto 22 intends that our products will satisfy the substance restrictions prior to July, 2017. Until then, some of our products may contain hazardous substances restricted in this directive.
